Landslide Reporting Form

Wyoming State Geological Survey
 Attn: Seth Wittke
 P.O. Box 1347
 Laramie, WY 82073

Date of occurrence: July 5, 2003

Landslide reported by (your name): John Doe

Phone: (111) 111-1111 Email: john.doe@xyz.com

Landslide location: West of Wapiti, approximately 2 miles on the north side of Hwy 16/20 just north of the Shoshone River

Helpful Information

Fill out the appropriate land survey or coordinates. If an address or coordinates cannot be provided, a detailed description of the landslide location is appreciated.

U.S. Public Land Survey System

Topo Map/Quadrangle	Township	Range	Section
<i>Wapiti 7.5-min</i>	<i>T52N</i>	<i>R105W</i>	<i>SW, SW, SW, SW Sec. 14</i>

*Please specify the sections quarters (ie. SE^{1/4}, SW^{1/4}, SE^{1/4}, SE^{1/4})

Coordinates:

Degrees, Minutes and Seconds

Latitude	Longitude
<i>44° 28' 9.84" N</i>	<i>109° 28' 29.03" W</i>

Decimal Degrees

Latitude	Longitude

Universal Transverse
 Mercator System (UTM)

Easting	Northing

*Important note: Please be extremely cautious as landslides can create difficult terrain. Don't put yourself in danger to gather a GPS location on the landslide.

Comments (use back if necessary): *Toe of landslide is approaching the North Fork of the Shoshone River. Look for hummocky terrain on slope and landslide debris consisting of large blocks of rock, gravel, sand, and mud. Noticed fresh scarp and soil exposure on slope after heavy rain. Landslide is approximately 1/2 mile North of Hwy.*
